WEEK 1 (Feb 13- Feb 20)

A. Weekly Accomplishments

Describe what task was completed and by whom. Complete sentences, paragraphs, and explanations are required. In parenthesis, provide the number of hours the team member worked on the specific task.

- 1) Successfully setting up Git repository and created separate branches for each team member.**
- 2) Set up environments for each team member including; VS Code, IOS Simulator/**
- 3) Created a Firebase project**
- 4) Ability to create an account**
- 5)login with email and password**

B. Problems/Issues

Describe the problem/issue, who is working on it, what the cause is, what has been tried to solve it, expected resolution. Complete sentences, paragraphs, and explanations are required. Explain how it may affect the project schedule.

- 1)After speaking with Dr. D we realized it might have been a better idea to start with the database because it will be a heavy task. But we also learned that the authorization and authentication did not take as long as we thought so we were able to start shifting gears over the weekend.**

C. Next week's planned work

What do you plan to work on next week? Complete sentences, paragraphs, and explanations are required. If you have pending issues from section B, how will they affect next week's plan?

- 1) This week we plan to begin working on the database we spoke about finding a csv that has some data we can use instead of an api.**
- 2) We will design the schema that meets all the requirements of our app**
- 3)We will have tables and entities created in MySQL**
- 3)We discussed working on a task together and then once we both understand the process, one will jump into the next function or task while the other finishes up the previous one.**

D. Time log

Total Number of Hours worked on the project this week per team member.

Honablue: 4 hrs, Alrashidi: 4 hrs

Total Weekly Team effort:
